### Old Business

#### a. River Road Sidewalk/Bridge Project Update

Bob Doane presented the detailed plans for the River Rd Bridge & Sidewalk project. The plans need to be approved by the Inland Wetland Commission. The bridge will be purchased from the vendor Pioneer and there are two quotes, one for weathering steel and one for galvanized steel. Mr. Doane stated that the State will help with the requirements of the bridge. Ryan Welch stated that he prefers the weathering steel.

Mr. Doane walked everyone through the details of the work from start to finish. There was general discussion about the specifications of the sidewalk, the work that will need to be done around the new sidewalk (grading and fill), curbing, movement of retaining walls, hedges, trees, etc. Mr. Welch suggested staking out the sidewalk so the public can see where it will be located.

Mr. Welch believes the work can begin late spring and be completed end of July. Mr. Glowac will present the project to the Board of Selectmen meeting on Wednesday

March 15th. The Board of Selectmen will discuss how to notify the public and when to have a Town Meeting and a Public Hearing.

New Business
