“Connecticut Water Company to flush water mains in Chester, Deep River and Essex”

Clinton, Connecticut, March 24, 2014 – The Connecticut Water Company will be flushing its water mains in the towns of Chester, Deep River and Essex, including Ivoryton, beginning on March 30 and continuing through April 8. Routine flushing helps to maintain water quality by scouring the inside of the water mains.

Night water main flushing will be conducted from March 30 through April 1 between the hours of 8:00 p.m. through 6:00 a.m. Daytime water main flushing will be conducted from March 31 through April 8 between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday.

During water main flushing it is possible that some customers may experience discolored water and pressure fluctuations. The discolored water should clear within a few hours. While experiencing discolored water, customers should avoid using their washing machine, dishwasher, or other water using devices. Customers should call Connecticut Water at 1-800-286-5700 if discolored water persists for more than a few hours.

Connecticut Water’s water main flushing schedule is available on its Web site at www.ctwater.com in the ‘Customer’ section. Connecticut Water is also on Facebook (www.facebook.com/CTWtr) and Twitter (www.twitter.com/CTwater).
