ESSEX INLAND WETLANDS & WATERCOURSES COMMISSION

PERMIT APPLICATION INSTRUCTIONS

Updated 3/9/22

Most projects will require an approved Inland Wetlands permit from either the Inland Wetlands Enforcement Officer or the Inland Wetlands and Watercourses Commission (IWWC) if your property lies

- Within wetlands or a natural or artificial watercourse (pond, river, cove etc...) or
- Within the 100' upland review area to an inland wetland or a watercourse.

The Application Form is available in the Zoning/Land Use Office or on-line (www.essexct.gov -- under Departments/Zoning/Permits & Forms).

Meeting Schedule: The IWWC meet the second Tuesday of the month at 7:00 pm in the Essex Town Hall (generally in Room A on the third floor). The schedule can be confirmed online.

The Application Deadline is a minimum of 14 days prior to the meeting by 4:00 pm, however it preferred to receive information 25 days in advance of the meeting. Applicants are encouraged to meet with the Land Use Official prior to submitting to discuss applications and submittal requirements. Also requests for the Commission to conduct a site visit can be made at any time including the meeting. A written request is preferred (simple letter format c/o the Wetlands Enforcement Officer – Zoning/Land Use Office).

Application Fees must be submitted at the time of application (see attached sheet).

Thirteen copies of the application must be submitted along with the accompanying site plan and DEEP State Reporting Form. Additional copies may be required depending upon the complexity of the project. If the project involves multiple site plan sheets (such as for subdivisions and/or commercial applications), check with the Inland Wetlands Enforcement Officer—11 full sets may not be necessary.

Site Plans must be of sufficient detail to show:

- The proposed activity with distances to the wetland, water body, or watercourse
- The location of the wetland, water body, or water course
- The location of the 100 foot upland review area(s)
- Location of erosion and sedimentation control measures
- Location of soil stockpiles, if necessary
- Location of buildings and driveways both existing and proposed

Often a hand drawn plan (as long as it accurately depicts the area) or a copy of a site survey may be used. Consult with the Wetlands Enforcement Officer for advice. However, professionally prepared plans (by a Licensed Land Surveyor/Professional Engineer, and/or Soil Scientist) may be required depending upon the complexity of the project. New buildings will require professionally prepared plans. Septic system repairs and/or a new system will require prior approval from the Health Department.

Process: The review process may take one-three months depending upon the complexity of the project. The Commission generally schedules a site visit if the members are not familiar with the property. Although a copy of the application is distributed to the members prior to the meeting, members can only discuss the application at the meeting. Please do not attempt to discuss the application with individual members outside the meeting.

You and/or your representative must be present at the meeting to discuss the application. Pictures of the area may also be helpful.

If the application is approved, a decision notice is posted with the Town Clerk and a local paper (generally the *Valley Courier* or *Hartford Courant*). An abutter may appeal the Commission's decision within 15 days of publication. If there is no appeal, an approved permit is mailed to the applicant. Other permits may be obtained at this time. **Activities (such as docks and retaining walls) within the CJL of the Connecticut River, its coves, or portions of the Falls River will require CT Department of Energy and Environmental Protection approval.**

Questions? Call Carey Duques, Land Use Official at (860) 767-4340 Ext 115 or email at cduques@essexct.gov.
